Github: Sugamchaturvedi20 Mobile: +91 7905627260

SKILLS

Languages: C++, Python, JavaScript, Java
Web Technologies: HTML5, CSS3
Tools/Platforms: Git, GitHub, GCP, Google Cloud Shell, Node.js, MySQL, VS Code
Project management: Agile, Scrum, Jira
Soft Skills: Problem-Solving, Team Player, Adaptability

PROJECTS

Smart Classroom & Timetable Scheduler | HTML, CSS, JavaScript | Github Aug' 26 - Sep' 26

- Developed a **full-stack university timetable management system** using **HTML, CSS, JavaScript, Node.js/Express, and PostgreSQL**, supporting large-scale academic data.
- Implemented **automatic timetable generation with multi-room scheduling and real-time conflict detection** for teachers, classrooms, classes, and sections.
- Designed a **scalable database-backed architecture** with authentication, timetable CRUD operations, analytics, and persistent scheduling data for university-wide management.

DevTrack — Project Management System | React, Vite, FastAPI, Python | Github Aug' 26 - Sept' 26

- Implemented a full-stack project management application with user authentication, project ownership, task creation, status and priority management, and protected **REST APIs**.
- Integrated React with **FastAPI**, **SQLAlchemy**, and **SQLite** for database-driven project and task management, authorization, **API communication**, and automated backend testing.
- **Configured CORS, API documentation**, and backend testing to ensure reliable communication between the frontend and backend services for seamless user experience.

Hotel Management System | HTML, CSS, JavaScript, Java, MySQL, Spring Boot | Github Jun' 26 - Jul' 26

- Built a responsive Hotel Management System with modules for room management, customer records, booking and cancellation, billing, login authentication, and revenue reporting.
- Implemented core hotel operations and business logic for room availability, booking management, bill generation, payment tracking, customer records, and revenue calculation **using JavaScript.**
- Applied Data Structures concepts including **ArrayList, HashMap, Queue, and Stack in the Java backend,** with **Spring Boot REST APIs and MySQL database design** for efficient data management**.**

TRAINING

Fundamental of Data Structure: Learn, Apply and Build Project | Certificate Jun' 26 – Jul' 26

- **Completed an intensive skill development course** covering core data structures, algorithms, computational problem-solving, and programming fundamentals through practical implementation.
- **Implemented and applied fundamental data structures and algorithms** including arrays, linked structures, stacks, queues, searching, sorting, algorithm analysis through hands-on tasks and projects.

CERTIFICATES

Oracle Certification | Oracle Aug' 26
Programming Using C++ | Infosys Jul' 25
Ethical Hacking | Certificate Jan' 25
Red Hat Certified System Administrator (RHCSA) | Red Hat Aug' 24
Communication and Public Speaking Skills | Certificate Jul' 24

ACHIEVEMENTS

Cloud Fundamentals | Certificate Mar' 25
Contributed to NGO | WNS Care Foundation Oct' 25

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology Aug' 24 – Present
Computer Science and Engineering; CGPA: 6.5

Praxis Vidyapeeth Basti, U.P
Intermediate Mar' 23 – May' 24
PCM; Percentage: 79%
Percentage: 79%
